The 2019 IGLTA Official Convention Signage was placed in a high traffic location, maximizing brand and logo visibility. Meter board displays that included Convention Sponsors’ Global Partners’, Media Partners’, and other partners’ logos were located in the main registration area near the IGLTA registration desk on the second-floor Promenade of the New York Hilton Midtown.
For the sixth consecutive year, the IGLTA Annual Global Convention program included a digital version available for download onto Apple and Android smartphone platforms. The app proved once again to be very popular with convention delegates, with almost 53 percent of delegates, logging in before and during the convention.

In addition to being a useful networking and convention planning tool, the mobile app allowed convention organizers to make last-minute modifications to the program and add walk-in attendees so delegates had the most complete and up-to-the-minute information. The app also provided the opportunity for convention organizers to send reminders and alerts to delegates.
Mobile App Banner
As part of the sponsorship package, Presenting Sponsors received additional visibility in the form of a rotating banner ad, visible on all pages of the mobile app. Banner ads linked to sponsors’ websites where delegates were able to find additional information.

Sponsor & Partner Visibility
The mobile app also provided excellent logo visibility and thorough company information on all Convention Sponsors, IGLTA Global Partners, Media & Organizational Partners. Sponsors and partners also benefitted from individualized presentation pages detailing company name, description, contact information and a web link. Presenting sponsors were also featured in rotating banner ads visible on all pages of the app.
All sponsors and Global Partners had individual profiles on the app under the sections "IGLTA 2019 Sponsors" and "IGLTA Partners." These profiles included information on the organization and links to videos or websites allowing the user to learn about the sponsors and partners.

Event Descriptions
All of the sponsored events included the sponsor name with a hyperlink to their profile in the app. In the profile, delegates could learn more about the sponsor and their current business initiatives.
